Re : Use of Recycled Materials in GreenEBoard Production

Sourcebynet Pte Ltd, in providing quality control inspections for Southern Cross Building Products, LLC in the production of GreenEboard™ certifies that the factory produces GreenEboard™ with 3% recycled content from outside sources and an average of 27% by volume of recaptured raw materials from within the manufacturing process. The factory minimizes environmental impact by this re-capture process. Documentation of this recycled content has been provided to Southern Cross Building Products, LLC, which has a US patent pending on the proprietary manufacturing process.

Best regards

Mr. Simon Yeo
